Reset password Activation

SSPR "Self-Service Password Reset" Activation

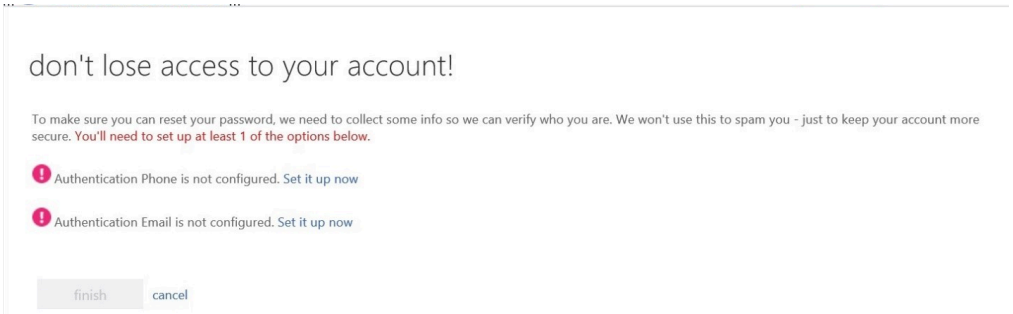

This feature enables users to reset their passwords without contacting IT staff for help.

The SSPR (Self-Service Password Reset) feature will be enabled on all JUST active accounts, so after you Sign into your e-mail, a login page appears (as shown below), click on "Next" button.

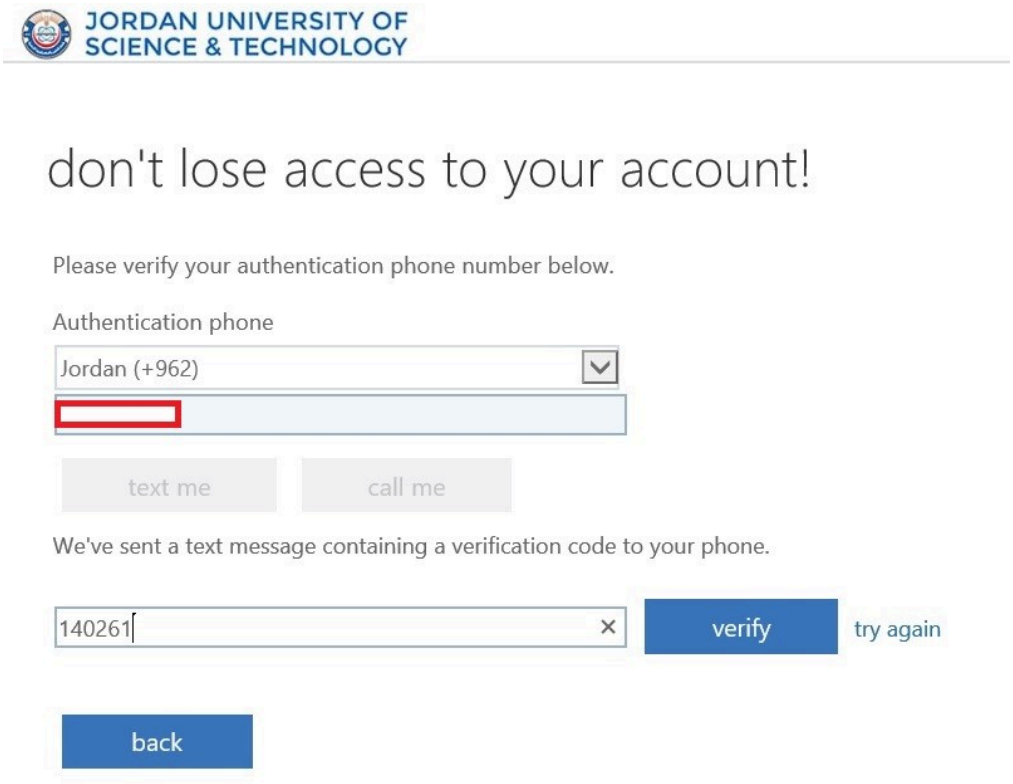

You will be prompted to configure alternate contacting method for resetting password:

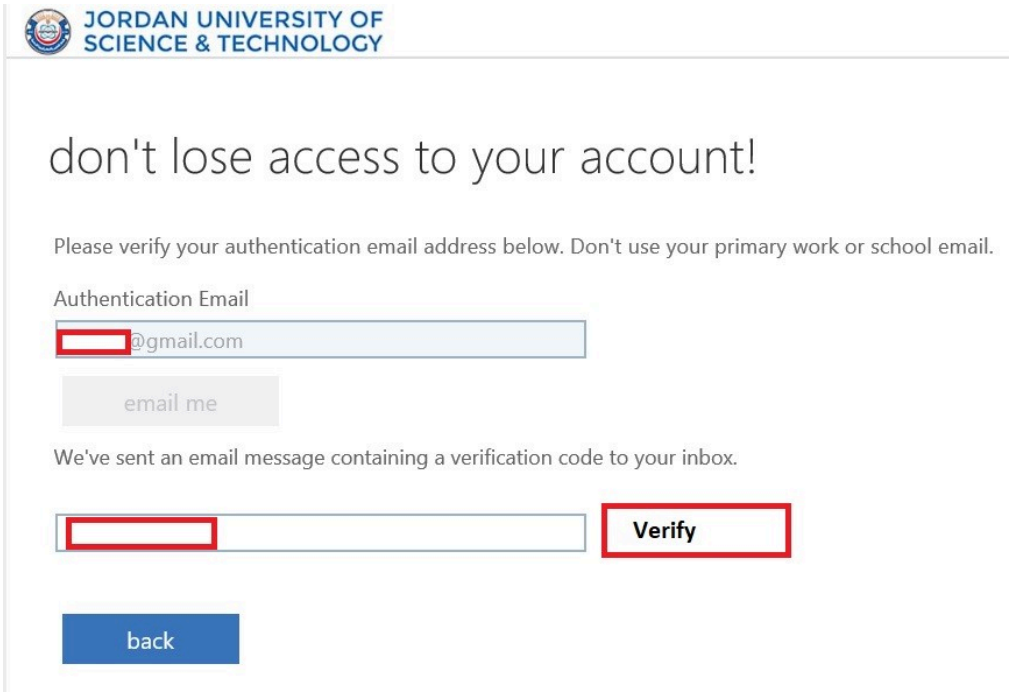

- To setup (Phone) verification authentication method:
  - Choose your country code and insert your mobile phone number.
  - Select "Text or Call" to get verification code. As shown below:

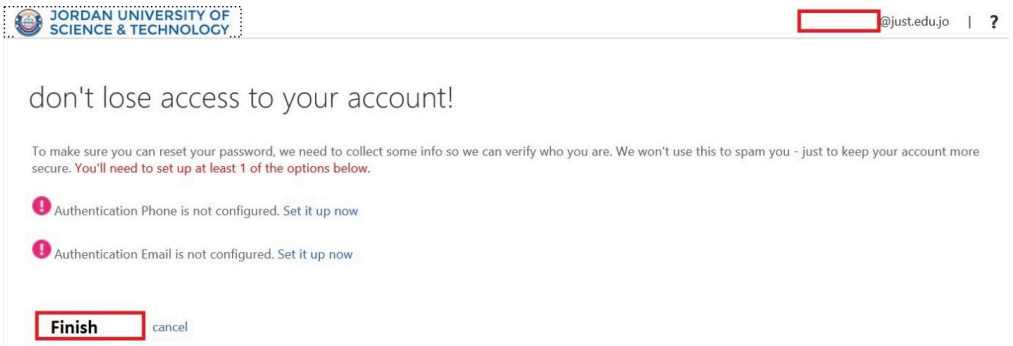

- fill in the code and Click "Verify".

- To setup (Alternate Email) verification authentication method:

- fill in an active alternate (external domain) e-mail address which will be used to retrieve password

- Click "email me" and a verification code will be sent to your alternate email you just wrote, go get the code and then fill it in and Click "Verify".

- then Finish the whole setup

Now you are done with setting up alternate contacting methods to reset your password.
