Service Details

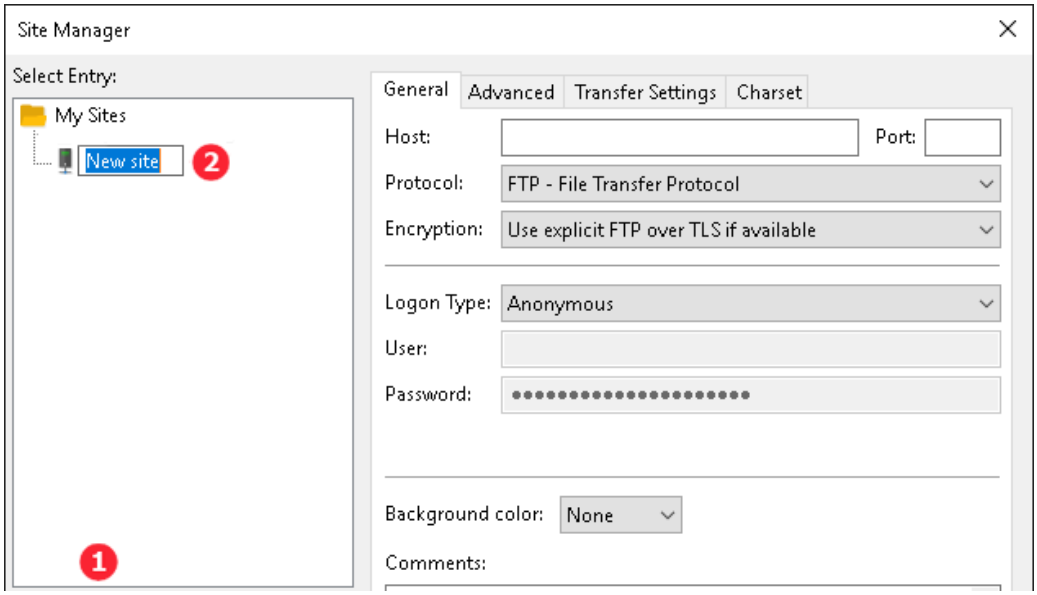

Students

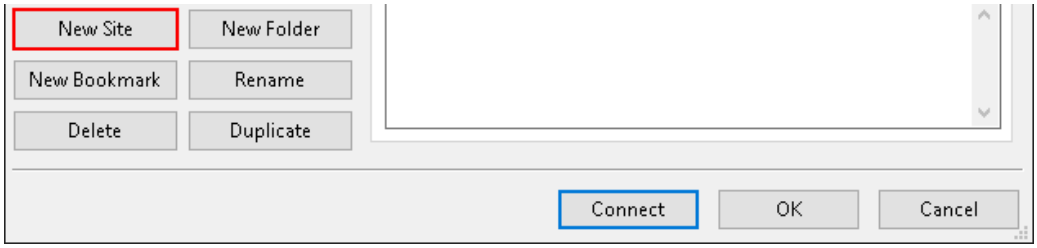

- Download and install FileZilla client (or any ftp tool).
  You can download FileZilla from the following link:
  https://filezilla-project.org/download.php?type=client

- Go to "File" and select "Site Manager".

- A new window will appear, Select "New Site" and choose a name for your site.

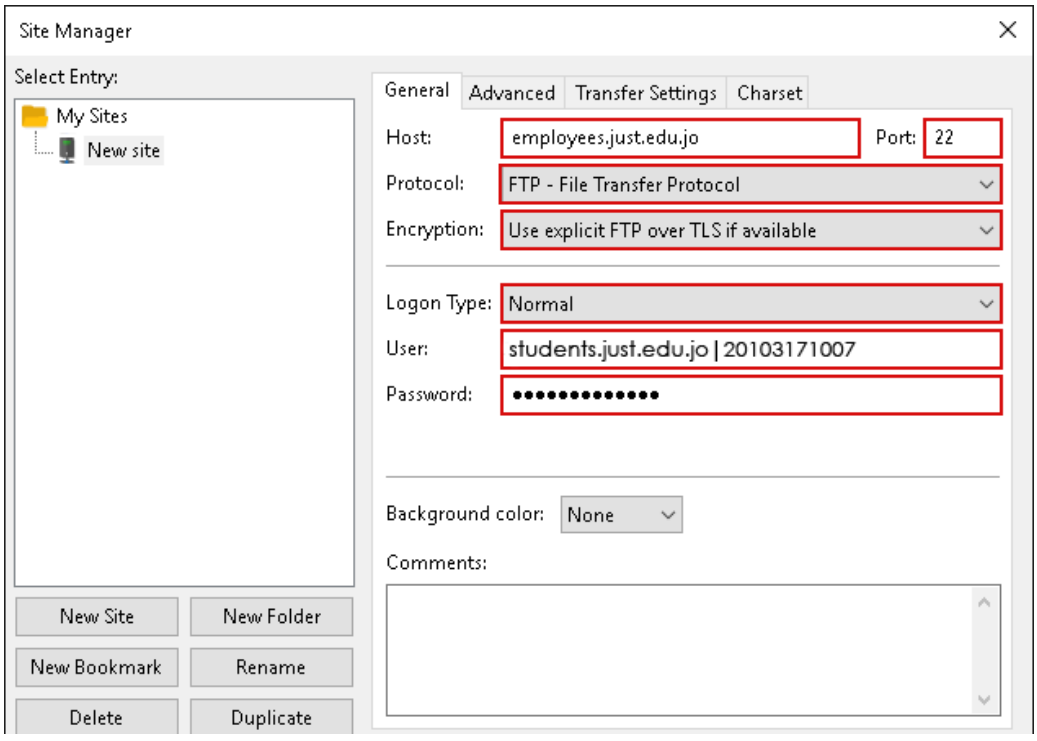

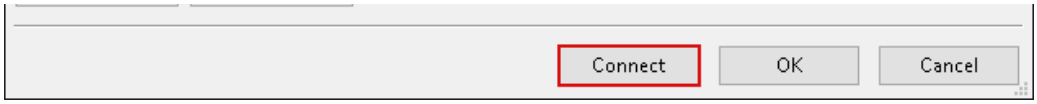

- Select “General” tab and fill in the following information:
  Host: Students.just.edu.jo
  Port: 22
  Protocol: FTP - File Transfer Protocol
  Encryption: Use explicit FTP over TLS if available
  User: students.just.edu.jo|*Student_ID*
  Password: *student_ID* Password
- click "Connect"

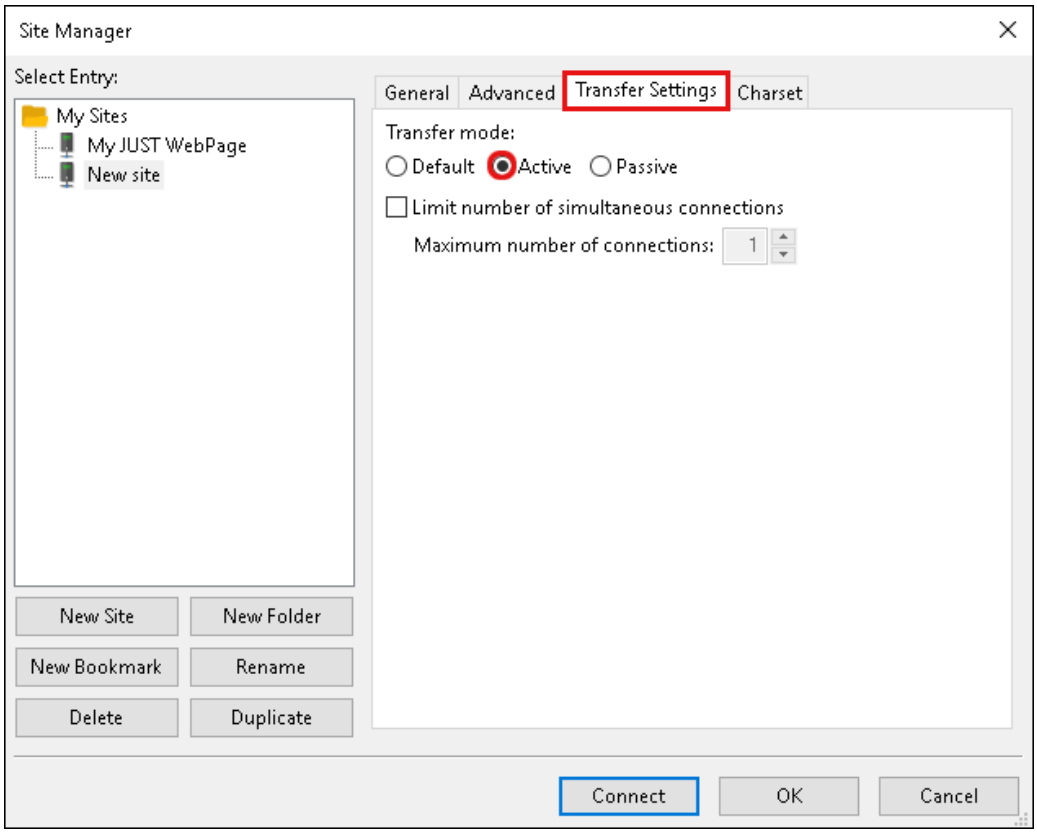

Notes:

- Insert *Student_No* for students who admitted before year 2017 and *Student_Serial* for students who admitted in
  year 2017 and later.
- You should use the bar “|” not “\” or “/”.

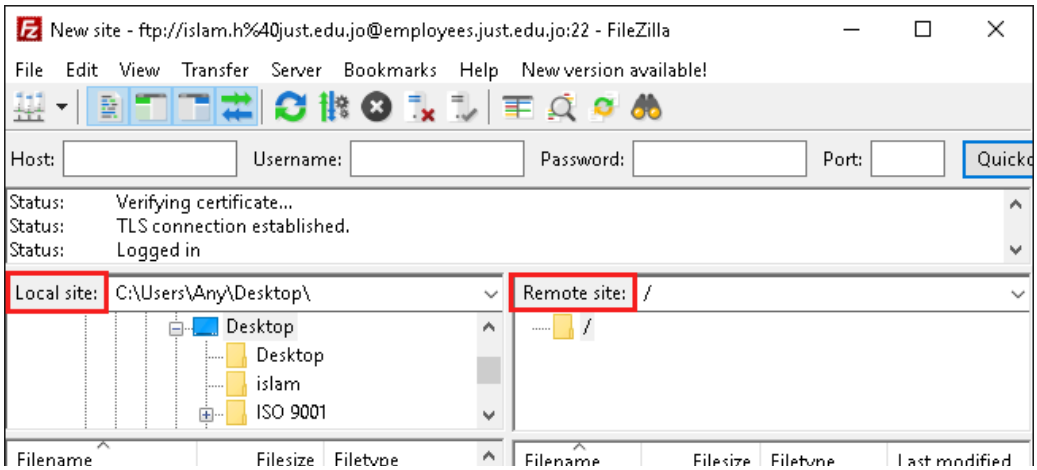

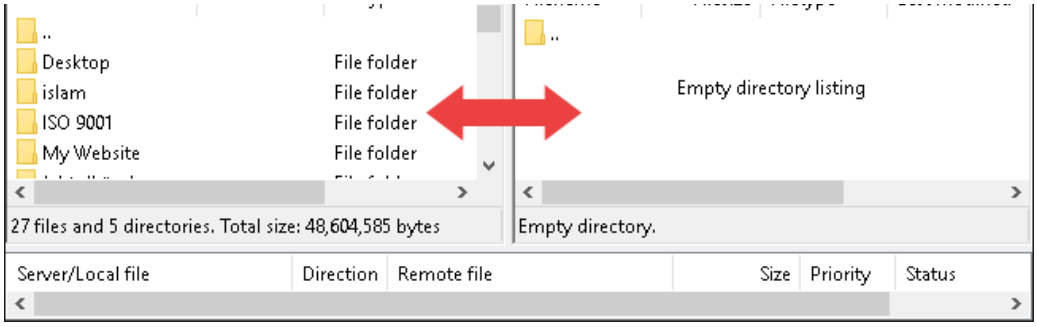

- In the “Transfer Settings” tap, select “Active” mode.

- Now you can drag and drop your html files from local site to remote site and vice versa.

Note: your main page name should be "index.html".

- After finishing the above steps, your personal website will be live at the following URL:

http://students.just.edu.jo/~*Student_ID*
